## **10. PARISH PLAN**

Cllr Hooper apologised for the delay caused by personal circumstances in producing the finished article. He explained that with a 43% return and a plethora of comments he had been staggered by the amount of work involved in extracting all the data. He was happy to say that he had finished and the data was available for the printer and for the website. All councillors would receive a copy and a paper copy would be available for residents.

He suggested that perhaps a “launch night” at the Village Hall might be a suitable way of involving all groups in the Village that are interesting in seeing what progress could be made from the results detailed in the Plan.

He extended his thanks to all those who acted as counters, all of which came from the community at large

The chair proposed vote of thanks to Cllr Hooper for all his endeavours in setting up and seeing through what proved to be a huge task.

## **11. MEMORIAL**

Since Cllr Hooper had been the initiator of this project and given that his time had been taken up on the Parish Plan, it was agreed to come back to the Memorial at another meeting.
